to me ▾

Thu, Dec 15, 3:35 PM (2 days ago)

The screenshot shows an email from InterServer.net with the subject "VPS Activation Details". The email content includes a greeting, a confirmation message, server details (Package, Hostname, IP Address, Username, Password), instructions on how to connect to the VPS using Windows Remote Desktop Client, and important links for helpdesk, control panel, and network tools. It also lists DNS servers.

VPS Activation Details

Dear

Your new VPS has been setup successfully!

Server Details

Package Hyper-V VPS Slice (Windows 1 Slices)
Hostname vps2571783.trouble-free.net
IP Address 173.225.103.132
Username Administrator
Password NzIWM4Yr

Connect to the VPS by using the Windows Remote Desktop Client.
Start Menu > Programs > Windows Accessories > Remote Desktop Connection

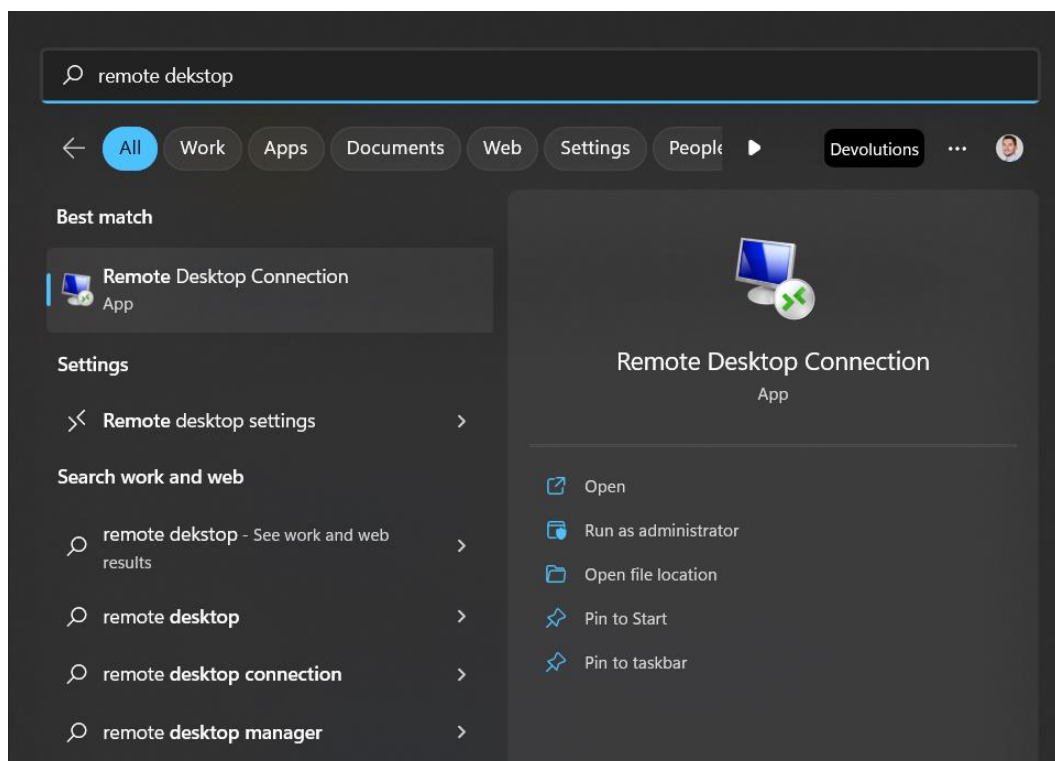

You can also view how to RDP <https://www.interserver.net/tips/kb/remote-desktop-windows/>

Important Links

Helpdesk <https://interserver.net/resolve/>
Control Panel <https://my.interserver.net/>
Network Tools <https://www.interserver.net/network-tools.html>

DNS Servers

2. Click on Windows and search "Remote Desktop" then select "Remote Desktop Connection":

The screenshot shows the Windows search interface with the search term "remote dekstop". The search results are displayed in a list view. The top result is "Remote Desktop Connection" (App). Below it are "Settings" (Remote desktop settings) and "Search work and web" results. The "Search work and web" results include "remote dekstop - See work and web results", "remote desktop", "remote desktop connection", and "remote desktop manager".

Open

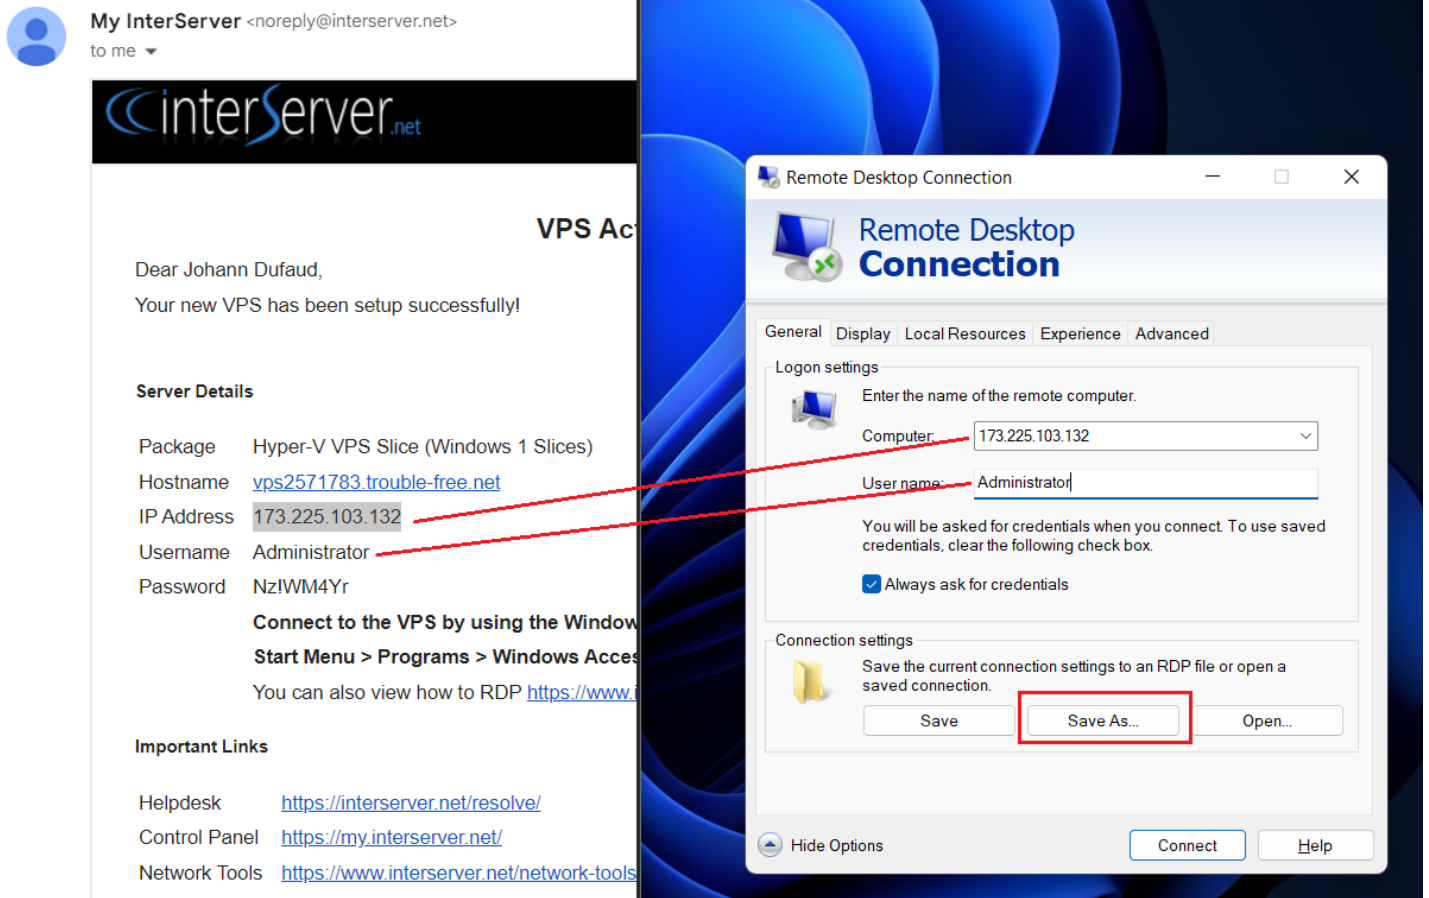

Run as administrator

Open file location

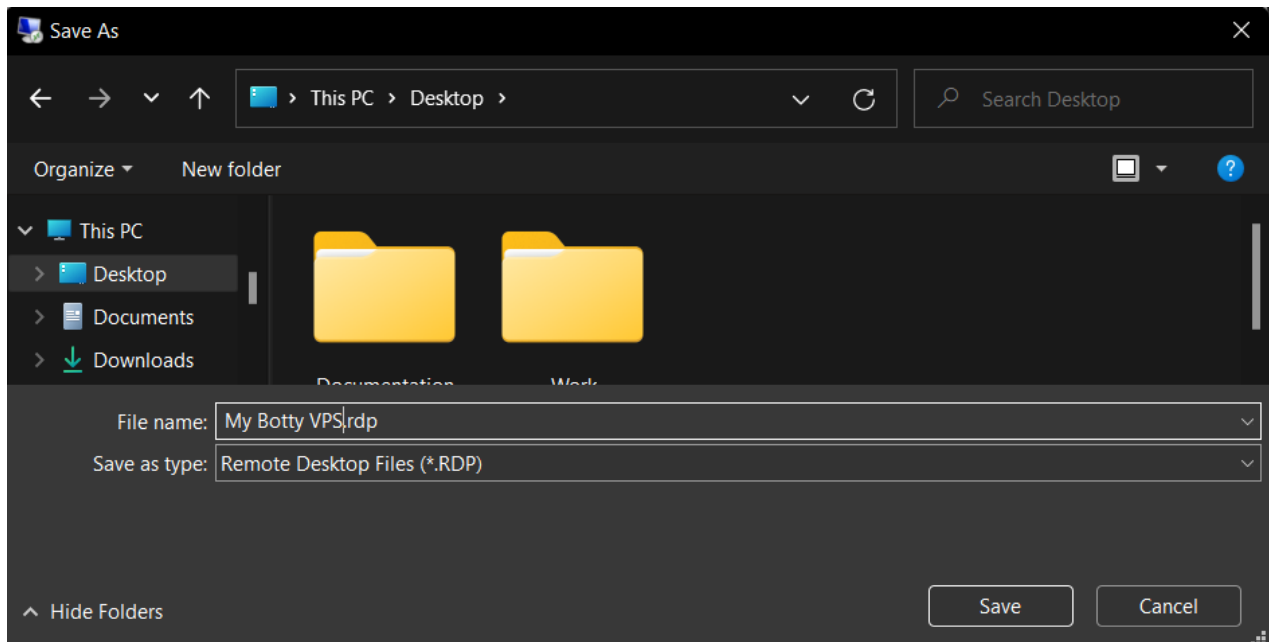

Pin to Start

Pin to taskbar

3. Click on "Show Options" to expand the window, Click on "Allow me to save Credentials" And fill the information like the screenshot. Finally, click on "Save As":

4. Select where you want to save your VPS access (the best location is the desktop), choose a name and click on "Save":

5. On your desktop click on your file:

6. This window will appear, enter the password and click on "OK":
